Tweed Rivers Art Gallery

25 June - 8 August

Opening: Friday 25th 6:30 PM by Brett Adlington,

For there is a sense of disorientation, a disturbance of direction, in the 'beyond': an exploratory, restless movement ... here and there, on all sides ... hither and thither, back and forth. (Homi K Bhabha)

Passions and ideas are transformed into unanticipated material forms where brain scans, recycled optical lenses and paper bags connect conceptually in the exhibition—*Beyond the Given*. Artists Haya Cohen, Virginia Miller and Sonya G Peters investigate ideas of embodiment, the intangible aspects of human experience and the friction between illusion and the real. This exhibition reveals the idea of the 'beyond' as non-given that disintegrates the boundaries between perception and expectation.
