**ARTIST STATEMENT:** [STAMP] Making a mark, leaving a print behind, with me as the instrument for transferral. The stamp pressing and mashing heavily on the surface below. These are the imprints I have left for you.

### BIO

Since graduating with a Diploma in Fashion and Textiles from the Central Institute of Technology, emerging Perth artist Ariel Katzir, has been filled with inspiration and exploding with the urge to put pen to paper. Taking inspiration from Egon Schiele and her education in fashion and textiles, Ariel creates works that pique your interest and curiosity in the human form.

Fascinated with uniform lines, geometry and the human form, she curiously incorporates these elements together, which create artworks that give the ability to see things from her creative perspective. She breathes life into these imaginations by using dark inks and vibrant acrylics, finding the contrast between the two and projecting them onto her canvas.

Ariel continues to explore her obsessions and share her creations.
