

ABOUT THE ARTIST....

ROY B WILKINS

Solo Show :FACE 2 FACE

Approaching the canvas with a quiet mind, Roy B Wilkins is an instinctive artist who allows his reactions to the music he listens to help shape the creative process of his work. His works are emotional landscapes in a spontaneous abstract expressionist style. They resonate with energy as he experiments with different media and techniques.

BIO

Born in Greenwich, South East London, Roy B Wilkins settled in Melbourne in 1999 and began painting. He is largely self-taught with a lifelong passion for art and art history.

Roy's paintings are created by experimentation with acrylics, ink, salt, drawing, collage, stencilling, and spray paint. This is applied in layers of patterns, shapes, lines and colour. They are reworked and layered until satisfying results are revealed.

The motivation for painting comes from feelings and reactions to music stimuli, usually electronic music. The images are emotional landscapes in a spontaneous abstract expressionist style.

"I go with the energy and bring a feeling from the music," he says.

A prolific painter, Roy paints as often as he can and on whatever surface he can find
