## SALLY PAXTON Solo Show: COLOURS OF THE SPIRIT

### ARTIST STATEMENT:

Nature wears the colours of the spirit. It speaks to us through different images, landscapes, colours, patterns, and forms of exquisite beauty. As we admire nature's extravagance, our emotions and feelings become part of it. This harmonious balance makes our souls happy.

**Ralph Waldo Emerson (1803-1882).**

### ABOUT THE ARTIST

Fantastical worlds colliding with reality, inspired by wild life and the nature of things in everyday life with heavy use of repetitive pattern and shape, particularly dots. Intricate

and delicate forms intertwine in her work, just as her reality and her imagination blend.

Sally Paxton is a pointillism painter who says that art and design have always played an important part in her life. She was raised on a farming property on the Murray River in Mildura and that is where her fascination with nature began. Now she lives in the Sunshine Coast in Queensland, on a very different stretch of water, the beautiful Yaroomba Beach where she walks the dogs on the beach, picks up driftwood and shells, explores the bush, watches birds and kangaroos and of course, paints.

"Once I start a piece it consumes me, I become obsessed and transfixed by it. Through this process a part of me is embedded in my work."
