### CONNECTIONS WITH NATURE

#### GOLA HUNDUN - SOLO SHOW - '7.6 BILLION AND STILL GROWING'

**Gola Hundun - environmentalist, philosopher, vegetarian, artist.**

There are 7.6 billion of us on the planet - we are the most conscious and also the most destructive presence here.

Prepare yourself as Gola Hundun takes us on an abstract consideration of the impact humans have on their environment.

---

Renowned Italian artist - **Gola Hundun** - is on his way to Australia in March.

His works adorn walls, streets and galleries around the world, and soon Australia will be added to this list.

Gola Hundun will be undertaking the creation of a large wall mural at Pacific Fair Shopping Centre on the Gold Coast and 19 Karen Contemporary Artspace is very pleased to announce we will be hosting his debut Australian solo show.

**7.6 Billion and Still Growing** - the number of human beings currently populating the world on which we live. In his new show, Gola takes the viewer on a visual journey as he looks at the current relationship that humans have with their planet, and the impact and consequences of their existence and expansion.

His works are balanced and beautiful narratives as a call to people for commitment and responsibility in a time of extinction and fractures in the life cycle - intricate and magical works on linen to make us think about the world around us and the mysteries of life.
